

## ADF CONTINUES ITS EXPANSION IN THE AMERICAS

Zug, Switzerland | August, 2019

Alternative Distribution Financing Ltd. (ADF), a specialized funder of receivables and payables based financing programs, continues to establish programs in North America, the latest of which is a program with a US based IT Distributor that covers trades in over 15 countries in Latin America (Latam).

ADF participates this facility to a trade-financing dedicated securitization program backed by one of the largest pension funds in Europe. The main benefit for the IT Distributor is the liquidity improvement through the extension of payment terms of purchases from its most important Supplier (IT OEM), and as a result, the possibility to enhance its own offering to clients in Latam.

Carolina Jara, Head of Legal, commented: *“We structure programs in an innovative way so as to maximize benefits for all stakeholders and allow for seamless growth”*. *“We are thrilled to promote business now in Latam and look forward to growing it further”*, added Kendall Stevens, CEO of GSCF Group.
