

GSCF'S NEXT SUCCESS STORY

Zug, Switzerland | January, 2014

As the leading servicer in the Supply Chain Finance (SCF) marketplace, Global Supply Chain Finance Ltd. (GSCF) remains at the forefront of product development, involving itself deeply in the structuring side of the business. Having identified a clear market need for non-direct bank funding of SCF programs, GSCF launched in 2013 its own financing vehicle, a bankruptcy remote entity domiciled in Switzerland: Alternative Distribution Financing Ltd. (ADF).

Since its foundation, ADF has received strong interest from corporates as well as from different types of investors, establishing a very busy pipeline for 2014. *“We have bullish growth expectations for this part of the business, which we foresee will soon become our next success story”*, commented Kendall Stevens, CEO of GSCF Group.
