

SUCCESSFUL RAMP-UP OF ALTERNATIVE DISTRIBUTION FINANCING LTD.

Zug, Switzerland | January, 2016

As the New Year progresses, so does the ramp up of Alternative Distribution Financing Ltd. (ADF), the financing arm of Global Supply Chain Finance Ltd. (GSCF). Individual Trade Payables Financing (TPF) programs have been successfully activated with ADF as the fronting funder. Numerous companies, mainly IT distributors in EMEA, have been amongst the first ones to benefit from ADF's attractive TPF offering. ADF is experiencing strong demand not only for its TPF programs but also for its Distribution Financing solutions and is consequently working on increasing the size of ADF. The Business Development and Legal teams have been recently strengthened in order to cope with the increased business volume, which is expected to grow at an even faster pace in 2016.
